10/735,101**

Examiner Smith,

Please find enclosed a draft amendment as discussed.

1. (Original) An efficiency report generator comprising:
  - logic configured to receive a first work statistic of a first operator from a first computing element, wherein the first work statistic is generated by the first computing element using a first entry code that is associated with the first computing element;
  - logic configured to translate the first entry code into a second entry code that is associated with the efficiency report generator;
  - logic configured to store the first work statistic as a first entry of a database of the
